

7 HELPFUL TIPS FOR A MEDICAL MALPRACTICE CASE

1. Obtain full copies of your medical and billing records from the doctors at fault.
2. Take photographs of your injuries.
3. Get the names of any witnesses, including nurses.
4. Make a list of all doctors and hospitals you treated with and the dates of treatment.
5. Contact an attorney immediately to protect your rights.
6. Do not settle your case with an insurance company.
7. Do not give a written or recorded interview with an insurance company.
